

New! GIC 120 Inspection Camera

The compact device for quick and easy inspection

- **Extremely compact 8.5mm** Camera Head
ideal for a **wide range of applications**
- **High quality 2.7" Display** for pinpoint
accurate problem solving
- **Improved ergonomics** with a sleeker and
more **robust design**
- **Quick Connector** for **fast disconnection**
and **compact storage**

Problem - Which way is up?

Solution - “Compass
View” Yellow point indicates
where “up” is in the Display.

“Compass view”
always gives the user
an indication **where**
the “up” position is

Bright LED (2x stronger
than current 9.5mm
camera) for **improved
lighting**

2 x Digital zoom to
get a **better view** on
area of interest

Black & white
function for **better
contrast** in **difficult
light conditions**
