

Technical Data

DUST REMOVER HFC FREE DUST REMOVER

General Description

A high pressure liquefied gas aerosol that gives a powerful blast of 'gas' for the easy removal of dust and other loose contamination from hard to reach places.

Benefits

- Free from HFC gases which are known to contribute to global warming
- Powerful blast of clean 'gas' – no residue
- Economical on use
- Reduces electrical faults due to contamination
- Improves cooling fan efficiency by removing dust

Typical Uses

- Electronics & PCB's
- Keyboards & Control Consoles
- Optical Devices

Precautions For Use

Extremely flammable – De-energise all equipment prior to use. Control or eliminate static charge.

Refer to the material safety data sheet for this product.

Specific Hazards

- Extremely flammable
- Do not use in enclosed areas
- Ventilate area well prior to re-energising

Composition: LPG

Packaging: 12 cans/box

Aerosol: 400ml

Shelf Life: 6 years

Application Method

Aerosol can. Shake can thoroughly before use. To avoid discharging liquid propellant, can must be kept upright when in use. Hold 10 cm (4 inches) from the affected area and spray directly into it.
